

## **Software Demo Installation Instructions**

- Download and unzip the file from the web site.
- Double click the file called “Roadhawk installer”
- Follow the on-screen instructions.
- In the windows start menu, go to “All Programs” and run the Roadhawk Software.
- When the software has loaded, click this button to load a video file.

- In file open file box, navigate to find the files ending in .UB1 (these are the sample video files) that will have been included in the ZIP file.
- Click “Open” and the video file will start to play.
- You can use all the functions of the player including zooming in on the Google map and switching to Satellite view.
