

hd extreme max

CAMSPORTS HDMax Extreme

THE FULL HD EXTREME

the HDmax Extreme can film in HD1080p 30fps or HD720p 60fps to deliver amazing slow-motion action! The design is still compact, and includes a 2" LCD screen for tuning the camera and instant video playback. This camera is also great for shooting long sequences, with wire remote control, 12 V power supply option, independent mic-in, and micro-SD recording capability – Enough to satisfy the most extreme requirements from outdoor activities to motorsports.
