

PDR-100 DIGITAL SOLID STATE VIDEO RECORDERS

DESIGNED BY RACERS FOR RACERS
IN USE AROUND THE WORLD BY TOP RACING TEAMS

PERSONAL DIGITAL RECORDER

Chasecam PDR-100 Personal Digital Recorder - the leading solid state digital recorder on the market. Using Compact Flash Cards, the PDR-100 is rugged with no moving parts to break or fail. Can run on internal batteries or an external source, the PDR-100 also powers the bullet camera, includes high quality on-board sound and interfaces to other data acquisition devices. Far quicker and easier to use than camcorders. No more tangle of wires and complicated recording or transfer procedures. Just push one button. Used by top racing teams around the world including Formula One teams, and by an increasing number of professionals in the UK including Haymarket for their on-line features and TV production companies. Designed and built in the USA. Patents pending.
